

Minutes of the Neighbourhood Plan Steering Committee Meeting – 18th March 2018

Those present: CF, TB, AG, MS, DC, JS

Apologies: JM, CH, CR, DH

The purpose of the meeting was to review the latest version of the comments from the Reg 14 consultation to obtain agreement on the Steering Group responses and follow-up actions. A number of changes and suggestions were made during the meeting and JS has modified the document to reflect these. A copy of the latest version is attached and so I would appreciate if the Steering Group could review the file once more and feedback with any further comments/suggestions so that we can agree closure on all of the responses and action.
